- Adding a Second Setting to a Job
- Burning DVDs
- Adding Multiple Jobs to a Batch
- Pausing, Resuming, & Canceling Jobs
- Sending a Job back to the Current View
- Adding an Image Sequence

- Importing a Surround Sound Group

6. Streamlining the Workflow

- Saving a Setting for Later Use
- Employing Groups
- Attaching a Closed Caption File
- Adding Job Actions
- Adding Timecode to the Video Output
- Adding Multiple Effects
- Sharing Settings & Destinations
- Creating a Droplet
- Enabling Multiple Instances

7. Modifying Media

- Altering Frame Rate, Frame Size, & Aspect Ratio
- Insuring Video Quality
- Creating a Test Clip
- Testing Multiple Sections of a Video
- Using Markers in Compressor
- Choosing Marker Poster Frames
- Importing a Chapter Marker List
- Deleting all Markers
- Conforming Media
- Cropping Video
- Retiming Video

8. Integration with Final Cut Pro X & Motion

- Adding a Compressor Setting to Final Cut Pro X
- Sending a File to Compressor from Final Cut
- Adding a Compressor Setting to Motion
- Importing a Motion Project to Compressor

9. Distributed Encoding

- Caveats to Distributed Encoding
- Making Computers Available
- Creating a Network Group
- Manually Adding a Computer to the Group
- Disabling Automatic File Sharing

10. H.264 Encoding for the Cloud

- Choosing a Cloud Service
- Choosing a Test Section
- Exporting using the Built in Setting
- Sending your Movie to Compressor
- Jumping the Playhead to Markers
- Modifying the Pre-Existing Setting
- Understanding Data Rates
- Choosing a Data Rate
- Saving the New Setting
- Duplicating the New Setting
- Outputting Two Test Movies with Different Data Rates
- Comparing the Two Movies
- Adding Compression Markers

11. HEVC Encoding for iPad

- Understanding the Apple Devices Settings
- Checking Compatibility
- Choosing HEVC
- Accessing the Setting in Final Cut Pro X

12. Exporting without Re-encoding

- Viewing Chapter Markers in Quicktime
- Correcting the Marker in Compressor
- Enabling the Video Pass-Through Setting
- Enabling the Audio Pass-Through Setting

13. Delivering Motion Graphics

- Revealing the Alpha Channel in Motion
- Applying the Colorize Filter
- Exporting the Motion Project
- Sending the Motion Project to Compressor
- Viewing the Animation Codec

14. Creating Animated GIFs

- Setting a Range
- Applying the Animated Image Setting
- Adjusting the Playback Setting
- Adjusting the Quality Settings

- Viewing the GIF

15. Encoding for Facebook & Instagram

- Outputting for Facebook
- Facebook Resolution
- Supported Instagram Aspect Ratios
- Creating a 1:1 Instagram Setting
- Cropping the Video
- Reframing the Video
- Creating a 9:16 Setting
- Adjusting the Crop
