

# Creating Action End Titles in Motion 5

## 1. Introduction

## 2. Building the Composite

- Setting up the Project
- Reviewing the Assets
- Building the Composite
- Compositing with a Blend Mode
- Using Filters to Integrate and Stylize
- Understanding the Threshold Filter

## 3. Integrating the Foreground

- Understanding the Gradient Colorize Filter
- Editing a Gradient
- Changing Channel Mapping
- Understanding the Color Reduce Filter
- Mapping Difference Between Filters
- Combining Filters
- Summarizing Filter Characteristics

## 4. Adding & Integrating Text

- Creating Text
- Adding a Gradient to Text

## 5. Creating the Opening Animation

- Adding Music to a Project
- Timing Animation with Markers
- Trimming Groups
- Animating Layers with Keyframes
- Animating Text with Behaviors

## 6. Creating Ongoing Animation

- Using Basic Motion Behaviors
- Moving the Anchor Point of a Layer
- Animating to Music with the Audio Parameter Behavior

## 7. Duplicating Scenes

- Shortcuts for Duplicating and Moving Groups
- Changing Project Duration

## 8. Exchanging Media

- Setting a Play Range
- Understanding Dimmed Layers and Groups
- Replacing Layers
- Editing Text

## 9. Modifying Colors & Animation

- Changing Filter Colors
- Fixing Animation Issues
- Moving an Animation Path
- Resetting the Audio Parameter Behavior
- Overlapping Groups
- Changing Scene 3 Content and Colors

## 10. Setting up the Credit Roll Scene

## 11. Building & Animating a Credit Roll

- Editing & Importing an RTF File
- Using the Scroll Text Behavior
- Fixing Alignment Issues
- Fading Out the Scene
- Understanding Playback Options

## 12. Exporting

## 13. Publishing Motion Projects

- Publishing a Template
- Where Motion Templates are Stored
- Using the Template in Final Cut Pro X
- Opening Final Cut Pro X Generators in Motion

## 14. Publishing Drop Zones

## 15. Publishing Parameters

- Publishing Color Wells
- Publishing the Gradient Editor
- Publishing Drop Zone Parameters
- Publishing Text Parameters
- Viewing, Editing, and Organizing Published Parameters
- Using Published Parameters in Final Cut Pro X
- Importing Media into an FCP X Event
- Changing Drop Zone Content
- Editing Text over a Drop Zone

- Modify Template Colors in FCP X
- Using the Text Inspector
- Adding Audio to a Generator
