

Text in Motion 5

1. Setting up the Project

- Final Cut Title Projects
- Other Project Options
- Final Cut Generator Projects
- Motion Projects
- Project Settings
- Getting the Project Ready
- System Preferences Settings
- Creating a Background Gradient

2. Creating Text & Choosing Fonts

- Using the Text Tool
- Adjusting Text in the HUD
- Using the OSX Color Picker
- Selecting Fonts

3. Font Sources

- Free Fonts for Commercial Use
- Creating Handwritten Fonts
- Designing Fonts
- Getting Final Cut Pro X Fonts into Motion

4. Text Inspector Parameters

- Text Inspector Tabs
- Format Parameters
- Kerning Text
- Style Tab Attributes
- Adding, Modifying & Saving Text Gradient
- Outline Parameters
- Glow Parameters
- Drop Shadow Parameters
- Saving Text Styles
- Text Styles in the Library
- Editing Text Styles

5. Paragraphs & Adjusting Glyphs

- The Paragraph Layout Method
- The Adjust Glyph Tool

6. Animating with Keyframes

- Animating Transform Parameters with Keyframes
- Animating Text Parameters with Keyframes

7. Animating with Behaviors

- Resetting Keyframed Parameters
- Using Parameter Behaviors - Example 1
- Parameter Behaviors - Example 2
- Text Animation Behaviors
- The Type On Behavior

8. Preset Text Sequence Behaviors

- Animating a Background Gradient
- Preset Text Sequence Categories
- Removing a "Ghost" Glow
- Continuous Text Behaviors
- Breaking Down Text Sequence Presets
- Introducing the Sequence Text Behavior

9. The Sequence Text Behavior

- One Ring to Rule Them All
- Applying the Sequence Text Behavior
- Animating with the Adjust Item Tool
- Adding & Animating Parameters
- Sequence Text Control
- Understanding Spread
- Animation Direction
- Animation Speed
- Creating Variance
- Modify Text Sequence Presets

10. Randomizing Text

- Using the Sequence Text Behavior
- Animating the Character Offset Parameter
- Using Fixed Width Fonts
- Adjusting Spread
- Taking it Further

11. Twisting Text

- Sequencing Rotation
- Rotation Anchor Point
- Using Behavior Controls

12. Saving & Reusing Text Animations

- Saving Behaviors
- Save Location Options
- Saving Behaviors with Text

14. Distorting Text

- Distorting with a Filter
- Distorting with Behaviors
- Distorting with a Generator and a Bump Map

15. Text & Image Masks

- Image Mask Basics
- Image Masks & Paint Strokes

16. Creating a Credit Roll

- Using a Text File
- Modify a Text File in Motion
- Animating the Scroll
- Changing Scroll Duration
- Scroll Parameters
- Fixing Alignment Issues
- Formatting & Styling Text in an RTF File
- Adding Video & Graphic to a Roll

17. Creating a Write-On Effect

- Write-On Method 1 - Paint Tool
- Method 1 - Bezier Tool
- Mask Method

18. Text Generators

- The Timecode Generator
- The File Generator
- The Time Date Generator
- The Numbers Generator

19. Special Characters

- Editing Special Characters
- Manipulating Special Characters
- Animating Special Characters
- Special Characters on Path

20. Animating Text to Audio

- Applying the Sequence Text Behavior
- Applying the Audio Parameter Behavior
- Randomizing the Animation
- Changing Animation Sensitivity
- Isolating Frequency & Amplitude
- Using Multiple Audio Parameter Behaviors
- Animate a Graphic to Audio

21. Blowing Away Text

- Replacing Text with a Replicator
- Animating the Replicator with a Simulation Behavior
- Repel Parameters
- Animating the Repeller
- Randomizing the Animation

22. 3D Filters

- Text Style Considerations
- The Indent Filter
- Using the Height Map
- The Extrude Filter
- Combining Filters
- Filter Limits in 3D
- The Sphere Filter

23. Text in a 3D Scene

- What is 3D in Motion
- The Adjust 3D Transform Tool
- 3D Groups
- Adding a Floor
- Adding a Camera
- Matching Object Position
- Adding a Light
- Using a Spot Light
- Enabling Shadows
- Adding Reflections
- Animating Text in 3D
- Animating the Camera

24. Revealing Text in 3D

- Project breakdown
- Modifying the Sequence Text Behavior

25. Text in a 3D Box

- Project Breakdown
- Adjusting Camera Angle View

26. Creating "True" 3D Text

- Creating Depth with a Replicator
- Adding an Outline
- Trading Off Quality & Performance

27. Text & 3D Depth of Field

- Project Breakdown
- Enabling Depth of Field

28. 3D Text Replicator Animation

- Project Breakdown

29. Text on a Path in 3D

- Adding an Animated Earth
- Background Breakdown
- Working with the Path Layout Method
- Animating Path Offset
- Wrapping Text Around an Object
- The Key: Advanced Formatting Parameters
